Identity notes

The Exile identity is built around the survival camp: a supply crate with crossed straps as the logo, and a night-camp banner with a canvas tent, campfire, crate stack, and watchtower. It reads instantly as an Arma 3 Exile modding catalogue without naming anything internal. The catalogue-layout diagram maps the repo's four content families (add-ons, scripts, tools, database) onto one hub.

Shared estate aesthetic spec

Shared estate aesthetic (locked): true 8-bit pixel art on a 128x128 grid (or clean multiples), NEAREST-neighbor integer scaling only, hard pixels, solid colors, no anti-aliasing, no gradients, no glow, no photorealism. Estate palette only: BG #080C11, TEXT #DCE6EE, DIM #748291, CYAN #62E6D2, CYAN_DIM #2B7067, AMBER #F0AA68, RED #ED746A, GREEN #5CEB96. Pixel typography for all text. Banners carry a 4px CYAN_DIM inner border on BG; logos carry a 2px CYAN_DIM outer border on BG. Public repos get fully generic subject matter.
